MOVABLE CABINETS

*A complete line of storage and
special purpose classroom cabinets*

DOUBLE HEIGHT GENERAL STORAGE CABINET has twice as much practical storage space. One shelf allows storage of massive items . . . or add dividers to make up to 36 cubicles. Height: 49", 51"; Depth: 22".

TEACHER'S WARDROBE-STORAGE CABINET. Teachers love this handy, compact, lock-away cabinet. It gives her a plastic vanity tray, mirror, file drawers and plenty of shelving. Height: 69½", 71½"; Depth: 22".

TEACHER'S STORAGE CABINET with five adjustable shelves. Lets the teacher keep her supplies locked away . . . gives her an uncluttered orderly classroom. Height: 69½", 71½"; Depth: 22".

GENERAL STORAGE CABINET for all-around multipurpose storage. Use without shelves to store large items . . . or use up to 7 adjustable shelves, or with pull-out drawers. Height: 23", 25", 27", 29", 35", 37"; Depth: 22".

CABINET SINK with rugged plastic surface and deep-well stainless steel sink. Has H & C faucets, towel rack, basket strainer and optional fountain bubbler. Perforated doors for proper ventilation. Height: 23", 25", 27", 29", 35", 37"; Depth: 22".

PAPER STORAGE CABINET extra deep . . . perfect for large drawing paper, newspapers, etc. Will accommodate up to 5 horizontal shelves. Height: 23", 25", 27", 29"; Depth: 26".

PAPER DRAWER STORAGE CABINET with waterfall front design, 4 or 5 alternating blue and yellow pull-out drawers on sliding extension arms. Height: 23", 25", 27", 29"; Depth: 26", Width: 39".

TOY CART WITH TABLE SHELL. Caster-mounted cart may be pulled out to move or gather toys, leaving the plastic-surfaced shell to serve as an extra table. Height: 23", 25", 27", 29"; Depth: 22".

BOOK TRUCK on wheels for complete mobility. Roll books or supplies right to the spot where they're needed . . . and, against a wall, it banks as a Two-Tier cabinet. Height: 29"; Depth: 15".

ONE TIER CABINET. Ideal for wall mounting, supplementary storage . . . or as a decorative low cabinet for plant or book display. Perfect as a seat-storage bench. Unit height: 15"; Depth: 15".

TWO TIER CABINET for supplementary work surfaces. Singly or in banks, this cabinet can be used as "see-over" room dividers. Also ideal for spot storage of materials. Height: 29"; Depth: 15".

COMPARE THESE PLUS FEATURES

HONEYCOMB CORE construction gives tremendous strength without mass.

STEEL INTO BARREL NUT assembly permits unlimited reassembly without wear.

VERTICAL DIVIDERS, as many as 5 per shelf, answer specific functional needs.

LEVELING ADJUSTMENT assures perfect horizontal alignment despite floor irregularities.

PLASTIC EDGING on all end panels and dividers to prevent marring.

ONE TOOL ASSEMBLY—Any cabinet can be assembled in minutes with a Phillips screw driver.

FIVE TYPES OF MOUNTINGS to choose from: Legs, Casters, Wall Mounting, Island Base, Full Base.

MOVABLE SHELVES may be moved up or down according to individual needs.

AVAILABLE IN 6 COLORS FOR LEARNING—Sliding panels and back panels are available in choice of coral, yellow, green, salmon, blue, grey to complement your Brunswick Fiberglass seating. Warm grey cabinet frames help create the perfect learning environment.

FOUR TIER CABINET. The ideal all-in-one cabinet for open or closed storage space. Used in series it's a room divider . . . or it can be a storage-island or plant display unit. Height: 53"; Depth: 15".

*consider quality and economy

that continues to set the pace!*

Brunswick

MOVABLE CABINETS

Quality and economy *do* go hand in hand . . . when you use Brunswick movable cabinets! One hundred thirteen years of quality manufacturing experience, together with the most advanced thinking in school furniture design, has enabled Brunswick to mass produce the most complete, functional line of movable classroom cabinets, and furniture available anywhere . . . and do it economically. As a result, here's the practical solution to the many problems incurred with undependable job-site construction of expensive, built-in storage cabinets. With Brunswick, you needn't worry about warping or checking, mismatched replacement parts, or worse yet . . . part-time performance of inflexible, fixed cabinets that are old before their time.

Brunswick movable cabinets complement your Brunswick furniture and flex with every need of the classroom . . . they serve as extra work surfaces, room dividers, project areas, storage islands. The only cabinets made with interchangeable parts that let you take out dividers, add shelves, or change heights to meet the ever changing functions of the modern school. Top quality throughout . . . precision turned hardware, sturdy structural parts, plastic covered work surfaces and molding, precision engineering, factory-built quality, inspected and tested to meet rigid standards of perfection. Brunswick cabinets are strong . . . will give a lifetime of good service.

All of the Brunswick representatives are school specialists who will welcome the opportunity to show you our complete line of classroom cabinets and furniture. Call your local dealer today . . . in addition to furnishing you with technical information and price quotations, he will be happy to place a trained staff of room equipment layout experts at your service.

STUDENT'S WARDROBE with 15 hangers, 12 coat hooks and a wire shelf for books or lunch boxes. Turn it around and it's a sage green cork-board. Heights: 51", 54½"; Depth: 22".

TOTE-TRAY STORAGE CABINET with up to 48 removable, plastic storage trays lets the student move books, ledgers or supplies to project areas quickly . . . easily. Height: 69½", 71½"; Depth: 22".

AUDIO CONSOLE with Califone transcription player to serve a hundred uses. Use it as a portable PA system . . . for speech correction . . . music appreciation . . . even dances. Height: 29"; Depth: 22".

CRAFTWORK BENCH with roomy cabinet understructure mounted on casters provides a truly portable workshop. And tools may be safely hung out of the way. Height: 25", 29"; Surface: 28" x 60".

BOOKSHELF CABINET MODEL A with shallow 10" depth adjustable shelves fits snugly against the wall in minimum-space areas. A perfect unit for classroom or library. Height: 29", 31".

BOOKSHELF CABINET MODEL B with 5 fully adjustable shelves is a real space saver anywhere. Bank several snugly against a wall, or use them as handsome room dividers. Ideal for classroom or library. Height: 69", 71"; Depth: 10".

BOOKSHELF CABINET MODEL C with 3 fully adjustable shelves is a perfect accessory to the Two Tier and General Storage Cabinets. Mounts right on top to double your storage area in just minutes. Height: 34"; Depth: 10".

Brunswick MOVABLE CABINETS

exclusive advanced design features

Open Shelves or Doors

Sliding doors are available in a choice of six colors. Back panels are constructed of sturdy hardboard. Doors are automatically fixed in sliding position when cabinet side-panels are assembled.

Full or Divided Shelves

All shelves may be vertically divided with partitions extending from front to rear. Shelves are provided with pre-drilled anchor holes for this purpose.

It's all done with the turn of a screwdriver...

EXCLUSIVE "ONE TOOL" ASSEMBLY

Any cabinet can be assembled in a matter of minutes with a Phillips screwdriver. Phillips head screws fit easily into pre-threaded metal ferrules which are permanent parts of all fixed shelves. Ferrules do not enlarge with use as do screw holes in wood. When panels are fastened into place all other components including doors, back panels and shelf dividers are locked in position. Once assembled, cabinets are more sturdy, more durable than any custom-made fixed cabinet installation.

Protective Melamine Plastic Finish

The topmost surface of every cabinet, in its role as a work surface, needs and gets the double protection of an impervious hide of pupil-proof melamine plastic. It's approved by N.E.M.A. In addition, all surfaces receive a hard protective undercoat that acts as a tough, binding adhesive for a sprayed on coat of sage grey finish.

Reinforced Honeycomb Construction

Greater strength and mass without weight, plus resistance to warpage, is achieved by using an exclusive honeycomb core construction. A kraft material is formed in a honeycomb, impregnated with phenolic resin for extra durability, then sandwiched between two panels of strong, tempered hardboard in a hardwood frame.

Inlaid Plastic Edging

End panel, adjustable shelf and divider edges are faced with a strip of durable, smooth-surfaced ethyl cellulose plastic. Prevents cabinet from bruising, marring, markings. Strip is inlaid into middle layer of plywood panel, will not come loose during life of cabinet.

Rugged, Tempered Hardboard

The constant movement of books, materials and supplies in and out of cabinets calls for tough, long lasting construction materials. To stand up to this duty, Brunswick selected a well-muscled, tempered hardboard which gives it extreme durability and resistance to damage from liquids, abrasives and cuts.

Shipped Flat... Stored Flat

Brunswick Cabinets are shipped "KD" (knocked down). All components for one cabinet packed in one carton. You save excessive freight charges on valueless bulk. In-school storage and handling are simplified. It is another example of how Brunswick Advanced Design keeps the total budget of the school official in mind.

5 FUNCTIONAL MOUNTINGS

Brunswick Cabinets may be fitted with interchangeable wall mountings... casters... legs... bases—a choice which assures complete flexibility to satisfy any and all curricular needs.

On the Wall

Can be simply and rapidly mounted on a wall through use of heavy-gauge angle steel wall mounting brackets. This provides a semi-permanent installation. May be mounted with or without back panels.

On Wheels

Free-rolling, rubber-tired casters may be affixed to any unit (except Toy Storage Table and Cabinet Sink units) for complete "round the school" mobility. Standard on Book Truck and Toy Cart.

On the Floor

Heavy-gauge, welded steel legs are equipped with exclusive resilient feet of nonmarking rubber and fitted with hard chrome-plated on-steel glides—assures silent and effortless cabinet movement.

Full and Island Bases

Available in 3 $\frac{1}{16}$ inch and 5 $\frac{1}{16}$ inch heights for the 2200 series only, bases extend around four sides of the cabinet. Receding angular design at front and rear affords ample toe-room. Large floor contact area minimizes damage to soft floor coverings. Also available, open front and rear island bases for use in rooms where baseboard heating is employed.

Self-Aligner Simple Screw Leveling Adjustment

Every base-fitted cabinet can be set in perfect horizontal alignment regardless of floor irregularity. The adjustment screw built into the corners of each base can be easily reached from the inside of the cabinet and manipulated with ease.
